Start, grow,  
and optimize  
your business

“

BridgingFX Offers You Complete And In-Depth Solutions For  
Setting-Up An IFSC Broker License During Belize.

”

# About Us

“

We provide Forex turnkey solutions to Start your Forex Company with an array of forex services.

”

**B**ridging FX allows Financial services, Online Brokers, Trading Entities to create their own Forex Brand with little effort via our simple integrated Solution. Grow your business while maintaining your personal brand with our simple solution.

The solution is built around a customized version of the MT4/MT5 platform which will be branded under the White Label Client's name. In addition to offering you and your

clients one of the most sophisticated platforms in the industry. Bridging FX offers a front and back-office infrastructure, real-time risk management and CRM tools. We are dedicated to helping you effectively start, grow, and optimize your business.

# Our Service

## Forex White Label

A Forex White Label can be simply described as rebranding of products and services offered by the main broker under your own brand name.

## Forex Grey Label

Forex Grey Label allows the potential partner to promote their business using the direct name of the broker.

The Ultimate Solution For Startup To Well-Established Broker With Full Access Of MT4/MT5 & Grey Label Trading Platform At Low Cost

# THE KEY FEATURES OF OUR SERVICE

---

# The Key Features of our Service Include:

## **P**latform variety:

You get access to three platforms: MT4, MT5 and C-Trader that can be customized in Desktop, Mobile and Web.

## **G**reat selection of trading instruments:

You can access many instruments as our liquidity pool allows.

## **D**eep liquidity pool from top liquidity providers:

Bridging Fx works with a variety of global financial institutions, providing our partners with cutting edge technology solutions along with a gateway to top tier-I interbank FX liquidity providers.

## **C**ustomizable and White Label-branded trading applications and interface:

Bridging FX infrastructure was designed to allow maximum flexibility when tailoring the platform's look and feel. Customizable elements include platform name, logo, platform tabs, colors, trading profiles, and much more

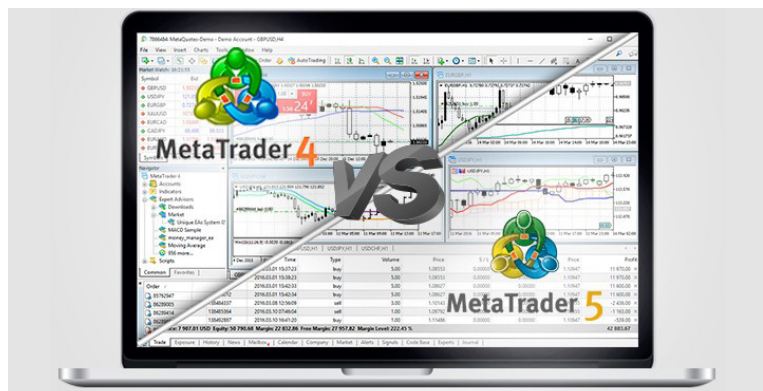

# The Key Features of our Service Include:

**Your Brand:** Bridging Fx manages your onboarding processes, sales, retention and client relationship tasks with a fully branded CRM system and automate all your activities.

**Back Office Support:** Our professional Back Office will handle all of your MT4/MT5 setup, AML and compliance processes.

**Licensed Solution:** The solution removes all financial concerns and complicated processes that are associated with running a regulated Forex brand and allows you to focus on reaching your full business potential.

**Customized Forex Web Design and CRM integration:** Bridging Fx makes your work even simpler by designing an eye-catching website with CRM integration to manage your client base.
